

DAILY NEVADA STATE JOURNAL.

VOL. 24.

RENO, WASHOE COUNTY, NEVADA. FRIDAY MORNING, JANUARY 1, 1886.

77.

A BEAST TAMER'S INVENTION.—Mr. Bansbach, a tamer of wild beasts in Germany, has invented an electric wand which is said to have the most marvelous effect upon his beasts. He has experimented himself in his own menagerie with the following results. The lion touched with the electric wand became very frightened, trembled all over and howled. The tiger received the touch more calmly, appeared frightened and crouched in a corner. The bear was quite insensible to the first touches, simply growled and showed his teeth, but after renewed application became quite quiet. The strangest effect was upon the boa constrictor, a beast from Cayenne, twenty feet long. On being touched he became paralyzed and remained six days without moving, after which he appeared a little better, but remained three days in a state of semi-paralysis. The elephant on being touched at the end of his trunk made a great noise and became so furious that the master thought he would break the bars of his cage. The master left and terminated his first experiments.—Ex.

In the House of Representatives there are 228 lawyers, 17 farmers and planters, 8 merchants, 14 manufacturers, 7 doctors, 6 bankers, 2 ministers and 7 newspaper men. Three members claim transportation and mining interests, 1 is a druggist, 3 railroad presidents, a civil engineer, a builder and a surveyor.

The conviction is growing that Grover Cleveland is making a first-rate President. A great many people who voted against him have come to that conclusion.—Virginia Chronicle.

The Nevada State JOURNAL's illustrated annual came to hand, with compliments of C. C. Powning. It is very pretty and well gotten up affair—Carson Tribune.

The Reno JOURNAL has issued a handsome illustrated annual during the holidays—Star Bee.

THE SILVER DOLLARS.

A Washington dispatch says Congress is preparing an animated contest over the silver question shortly after it reassembles in January. Both sides are deeply in earnest and the struggle is expected to be one of the bitterest that has been seen in many years. The element of uncertainty is so great that the outcome cannot be predicted, for lines will be obliterated. It is apparent that the opposition to the Bland law has grown, but to what extent no one can divine. Representative Reagan said Thursday that he feared the Democratic party would be broken up by the silver question. The silver men will never agree to any legislation that tends to impair the force of the principle that they defend and while Mr. Reagan hopes that no measures embodying the views of the anti-silver men will pass, he confesses that it is impossible to foreshadow what may happen. The fear that the party will go to pieces over this question is entertained by many other Democrats of strong silver views.

Although the California Congressmen claim to be yet undecided as to the course they will pursue in the matter of the land grant of the California and Oregon road, it is believed that the resolutions of the Boards of Trade of San Francisco and Sacramento, advocating the grant, will be accepted by the Representatives as the will of their constituents in general. Congressman Markham, being interviewed on the subject, declared that as he intended retiring from politics at the close of his present term, he could afford to be thoroughly independent in the matter and would vote either to forfeit or extend the grant according as his investigation showed which measure was best calculated to benefit the State. The attitude of the California delegation is of vital importance in that it will be accepted as a guide by Congress in dealing with the question.

Secretary Manning has under consideration the project of paying all Members of Congress and all employees of the government their salaries in silver dollars. It has been ascertained at the Treasury that among the most strenuous opponents to the acceptance of a small proportion of their pay in silver has been some of the heartiest opponents of the suspension of the Coinage Act, at the Capital. If this is carried out, it will not effect a single vote. The recent consultation of the President and several prominent silver men of Congress resulted in no healing of the difference of opinion, as neither side yielded in the slightest degree.

The Secretary of the Treasury has instructed the Collector of Customs at Georgetown, D. C., to admit free of duty certain plaster models, imported by the Ladies' Monument Association as designs from which a selection is to be made for a monument to General Robert E. Lee. Authority for this exemption from duty is found in a statute providing for the free importation of articles of art, imported for purposes of erecting public monuments.

The following Washington special was published yesterday: There was recently presented to the Attorney General on behalf of William S. Warner and his brother-in-law, J. Henry Work, a proposition to return to the creditors of the Marine Bank the full amount of the checks upon which their present indictment was found, namely, \$152,800. The Government has declined the proposition and both of the accused will have to stand their trial.

The general demand from all parts of the State is for the establishment of manufactures as a sure foundation of municipal expansion and prosperity. All towns having such aspirations should bear in mind that nothing will secure investment in such enterprises so surely as low taxation and freedom from debt. Reno furnishes such considerations and should continue to do so.

THE WORLD IN BRIEF.

Wood costs \$11 a cord in the city of Mexico.

An acre of oyster ground yields 3,000 bushels.

Tibet produces the finest merino wool in the world.

Fresh discoveries of gold are constantly being made in Japan.

An American company is to build a railroad in Russia with paper rails.

The Emperor of Brazil has a chronic disregard of etiquette and court rules.

The Japanese Government next year will send a dozen ladies to Paris to be educated in French.

American missionary societies have established 600 schools in Turkey, which have 25,000 pupils.

The late Cardinal Pansianca lived austere and slept on a hard board; his diet was bread and water.

In France every ninth child in a family is educated free by the government. This is to encourage large families.

The late Bishop of Manchester owned his extraordinary mastery over his voice having lived for years with a deaf mother and aunt.

The coal mines near Eggers, N. C., are to be reopened next Summer. One of these mines has a shaft 480 feet in depth. It was this coal that was used on blockade runners at Wilmington during the war.

Captain Eads' Tehuantepec ship railway scheme has received a great impetus from the recent action of the Mexican Congress in enlarging the concession to the railway, and guaranteeing it \$1,250,000 a year for fifteen years, on condition that some other country guarantees twice as much for the same period.

Two medical journals are fighting over chewing gum. One thinks it preserves the teeth, develops the gums, and should be encouraged; the other points out the injurious draught upon the salivary glands and digestive organs, and its crushing effect upon female loveliness. Meanwhile, the "Black Jack" brand—so named in honor of Mr. Logan—is still manufactured.

Lake Glazier, a newly discovered source of the Mississippi, is a sparkling little lake, which nestles among the pines of a wild and unexplored region of Minnesota, just on the dividing ridge which forms the great watershed of North America. It is about a mile and a half in its greatest diameter. The waters of the lake are exceedingly pure, coming from springs.

In Germany apothecaries are not allowed to sell miscellaneous articles, on the ground that such sales are likely to divert the clerk's attention from the delicate duty of compounding medicines. There are drug stores where miscellaneous articles are for sale, but no prescriptions can be prepared in them, under severe penalties. Poisonous articles are kept in a room reserved exclusively for them.

A cigar-smoking doctor says that when other smokers ask him for a light he offers them a box of matches, but never his cigar. "Gentlemen suppose," said he, "that I do this because my own cigar is not well lighted. The real reason is that I wish to avoid the risk of contagion from any one disease out of the dozen or more which may be transmitted by putting into the mouth an article infected persons have handled."

In the Chinese maritime reports it is stated that the Amis savages of South Formosa "hardened their children" by bathing. The infant is thrown into a tub of cold water on the day of its birth, and a month afterward is taken to the river or sea and allowed to struggle until tired out. The Amis children can swim long before they are able to walk. It is said that the "hardened" ones become strong because they are born so; the treatment knocks out the weak ones.

VERY NEAT.—The Nevada State Journal Illustrated Annual for 1886, with compliments of C. C. Powning, editor and proprietor, has come to hand. It is a very tastefully gotten up arrangement, comprising an almanac with usual monthly calendars and a large amount

reading matter and useful information, besides profusely illustrated with very finely executed engravings, and a beautifully illuminated cover. It is both useful and ornamental, and Powning shows very commendable enterprise in this holiday treat to the patrons of his excellent journal.—Enterprise.

HARD TIMES—Notwithstanding the hard times and scarcity of money the toy and fancy goods stores on the Comstock did a rushing business in the sale of Christmas presents, same as they always do on this annual holiday. Christmas, the circus or the minstrels are always well patronized here. A man may go broke the year around, but he will dig up a dollar somehow to attend circuses or get a Christmas turkey. Even the jewelry stores did a good business, which still continues and will until after New Year's Day.—Enterprise.

Wednesday the Directors of the Chamber of Commerce and Board of Trade at Denver moved a vote of thanks to Senator Beck for his advocacy of the continuance of silver coinage.

A GRAND OPPORTUNITY FOR EVERYBODY!

60 Methods of Making Money

A LEGITIMATE BUSINESS ESTABLISHED ON A SMALL CAPITAL.

THE SUBSCRIBER WILL SEND TO ANY address in the United States or British Provinces, 60 of the Best Methods and Formulas for establishing a business, that have been offered to the Public. These formulas and methods are genuine, and can be used as a foundation, necessary for any purchaser, to immediately commence business (in city or country) as proprietor or proprietress, of whatever business they may select. Some of the Methods and Formulas have been sold for previous amounts, and collected by the Subscribers at a great outlay.

In order to give some idea as to the value of establishing a lucrative business, the Subscriber would state that many people have been very successful in the Eastern States through the investment of \$5 to \$50, which would be required for the establishment of business.

Full directions sent with the 60 Methods and Formulas.

Price, 1 Dollar.

Remit by Postal Note of Money Order.

FRIDAY.....JANUARY 1, 1886.

TOWN AND COUNTY.

BREVITIES

Happy New Year.

There will be no JOURNAL issued from this office to-morrow.

The Supreme Court has affirmed the decision in the case of Thompson vs. Crockett, the estate of Crocker, and the estate of Kinkaid. This is the last of the Savings Bank cases.

The regular weekly dancing party given at the theater last Saturday night proved an unusual success in every respect, and it is to be repeated next Saturday evening, the whole Reno Guard band to be in attendance.

The President has decided that Public Printer Rounds will serve out his four years. Rounds expressed a willingness to retire at any time but the President requested him to remain until April, and he has consented to that arrangement.

Proofs to Public Lands.

In view of the large number of defective, irregular and insufficient proofs presented in public land cases, Commissioner Sparks of the General Land Office has issued a circular to Receivers of Land Offices, in which he directs that proofs must in all cases be made to the satisfaction of Registers and Receivers, and that cross examination should be directed to the verification of material facts alleged, and especially to actual facts of residence, and whether entry is made or sought to be perfected for the claimant's own use and occupation or for the use and benefit of others. Ready-made proofs, presented merely as pro forma acknowledgement, with verification, cross-examination or evidence of identity, will not, it is stated, be considered such proofs as are required by law. The officers taking affidavits and testimony are required to call the attention of parties and witnesses to the laws respecting false swearing and the penalties therefor, and inform them of the purpose of the Government to hold all persons to strict account for any statements made by them.

Masquerade Ball To-night.

Armory Hall will undoubtedly be crowded to its utmost capacity this evening on the occasion of the K. of P. masquerade ball. The Committees have worked hard and arranged raised seats in the gallery and placed the music stand on an elevated platform above the doorway, so as not to take any room from the main floor. The prizes offered are the most costly and finest ever awarded in the town. As it was impossible to select a suitable prize for the best group, the Committees have decided to give a cash prize, the amount to be decided on by them according to the merits of said group. The tickets for gentleman in mask are \$2 each; Gentlemen spectators, \$1; Lady spectators, 50 cents; ladies in costume, free. No person will be allowed on the floor without a full costume. Grand march at 9 o'clock sharp.

New Year's Calls.

Mrs. Dr. Bergestein, assisted by her sisters, Misses Julie A. Michelson, of Virginia City, and Marion G. Michelson, will receive New Year's callers.

Mrs. W. D. Phillips will receive calls from one to six p. m., assisted by Mrs. C. Kaiser and Mrs. G. Lyman.

Mrs. J. E. Dealey and Mrs. Mary Luke, assisted by Mrs. A. E. Wright and Miss Edith Dealey, will receive New Year's calls at the Lake House.

Mrs. Lucas, assisted by Mrs. Stone, will receive from 2 to 3 p. m.

Mrs. H. W. Higgins and Mrs. H. J. Thyes will receive callers from 1 to 6 o'clock.

Writ Denied.

The opinion of the Supreme Court in the case of Williams and Alexander against the Commissioners of Washoe county, involving the constitutionality of the County Government law of 1885, was filed yesterday. The Court denied the writ of mandamus, but whether the opinion is based upon the constitutionality of the law or other grounds, is not known.

DAGGETT'S MISSION.

It Was Not Important, and It Has Failed Most Dismally.

When Mr. Daggett, ex-United States Minister to Hawaii, returned some months ago, it was announced that he had been intrusted by King Kalakaua with a secret mission to Washington, and Mr. Daggett was not adverse to having the story believed that his business was to treat for the annexation of the islands. From time to time this sensational story has been revived, in dispatches from Washington and otherwise. The Honolulu "Bulletin" of the 19th instant is at hand, and gives the following interesting information:

"A letter from Washington has been shown to us, which reveals the burden of the mission of Mr. Daggett, ex-Minister Resident of the United States in Hawaii, from the government of this kingdom to the United States government, at the close of his term here.

The commission intrusted to Mr. Daggett was simply in relation to an old claim of this government against the American government. At the date of the letter referred to, Mr. Daggett had left Washington for San Francisco, having been authoritatively advised to abandon his mission. From the extraordinary course pursued by the Hawaiian government—that of sending a recalled foreign Minister on a delicate embassy to the government recalling him—this kingdom, therefore, secures the not unusual privilege of paying—dearly, no doubt—for an entirely unnecessary and, as it proves, useless diplomatic mission. It is to be hoped the facts of the case will be as extensively circulated through the great journals of England, America and Australasia as was the first sensational report of Mr. Daggett having been commissioned to treat for the sale of the islands to the Washington government."

Trouble for Rosecrans.

It is intimated that some of the friends of General Grant in the Senate will make a vigorous effort to prevent the confirmation of General Rosecrans as Register of the Treasury. It is asserted by them that General Rosecrans has seized every opportunity before and since the death of General Grant to give vent to his personal grievances against him. Such conduct, they insist, is not in good taste, and will justify their opposition.

TOWLE.

A complimentary banquet was given to Senator Beck Wednesday night at the Phoenix Hotel, Lexington, Kentucky, by the representative men of the blue grass region, without regard to party lines. General Wm. M. Preston presided. The responses to the toasts showed what a strong hold the Senator has upon the esteem of his fellow citizens, and his remarks which were made with much feeling, indicated his warm appreciation of the honor.

About a month ago John T. Morton, of Arkansas, was appointed, through the Civil Service Commission, to a \$1,000 position in the Postoffice Department. Nothing of him was known at Washington, except that he was a school teacher, and that the result of his examination had been entirely satisfactory, and when on Thursday he colored man presented himself everybody was surprised. He is the first colored man appointed to a clerkship in that office.

President Cleveland has granted pardons to Siven Jensen, Frederick Kingston, George F. Snyder, John S. Painter, Wells Chase, Orawell Simons and Charlotte E. Sharp, convicted at Salt Lake of polygamy and unlawful cohabitation, on their assurances that they have abandoned the alleged practices and will not resort to them again.

Secretary Manning holds that the sinking fund for the current fiscal year requires \$48,000,000. He said it would not do to call that amount at once, and said he had made a beginning with a call of \$10,000,000 only. This would indicate that between February 1st and June 30th, there will be four bond calls of about \$10,000,000 each.

There are five Senators of foreign birth. Beck is Scotch, Jones, of Nevada, is English, Fair, Seawell and Jones, of Florida, are of Irish birth. There are 12 Representatives of foreign birth—five from Ireland, one each from England, Scotland, Germany, Norway and Hungary. Two others are of Bavarian birth.

The Reno JOURNAL issues a very readable annual for 1886.—Truckee Republican.

NEVADA FARM HOMES.

Venomous Land Reclaimed From the Sagebrush—The Benefit of Railroads in Developing the Country's Resources.

Thursday's Enterprise says:

Early residents of Nevada can easily call to mind the time, only twenty years ago, when the stretch of valley lands between here and Reno was merely a sagebrush waste, hardly fit for cattle pasture, and not thought worth while trying to cultivate. By degrees, however, stimulated by the advent of the railroad, men located these lands, grubbed out the universal sagebrush, seeded the ground thus reclaimed with good grasses, alfalfa and grain, introduced irrigating ditches, planted trees, extending the area of their improvement year after year, until now this formerly barren sagebrush waste constitutes one of the most productive and valuable sections of the State.

From Steamboat Springs all along the foothills of the Sierra Nevada, and across the entire width of the valley, through to the Truckee, and away down the Meadows to Glendale, and beyond is one glorious expanse of farms, large and small, neatly fenced, fertile and productive, with broad pastures dotted with herds and flocks of fat cattle, sheep and horses, and all along the line of the Virginia and Truckee Railroad especially, are some of the pleasantest and most comfortable farm homes imaginable, with handsome, cosy residences, ample barns and outhouses, well-fitted granaries and cellars and great stacks of choice hay. The dwellers on these farms raise the choicest fruits and vegetables in the world, such as took highest premiums at the New Orleans Exposition, and by due attention to proper irrigation produce extra heavy crops of grain and hay, supplying plenty of food for their own stock and having a surplus for market. In fact they are measurably independent, and doubtless happy and content, or should be.

This is merely one instance of how railroads can and do develop the latent resources of the country, giving cheaper and better transportation, and not only creating and promoting the production, but furnishing a market therefor. There are hundreds and thousands of acres of just such lands within the borders of this State awaiting the advance of railroads and other facilities for development, and some day they will be occupied, improved and added to the widening expanse of Nevada farm lands and homes.

California Trout at the East.

The Committee of two appointed to examine the supply of spawners at the State Fish Hatchery, to see which could be dispensed with, so as to keep the expenses within the limits, has reported that "if any are to go, California trout, perhaps, can be spared best, as they probably cost more to raise. This is not on account of any defect in the quality of the fish, but because, being spring spawners, so large a proportion are consumed in their infancy by older fish. There could be enough California brook trout and hybrids spared to fill the vacant pond at Cold Spring, and that hatchery might as well hatch trout enough to keep Long Island stocked as to expend all its resources in experiments on salt-water fish."

Go to J. J. Becker's Chicago saloon for your New Year's lunch, the only place in town where a glass of genuine Philadelphia Lager can be had.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-1886-1886

Nervous Debilitated Men.

You are allowed a free trial of thirty days of the use of Dr. Dye's Celebrated Voltaic Belt with Electric Suspensory Appliances, for the speedy relief and permanent cure of Nervous Debility, loss of Vitality Manhood, and all kindred troubles. Also for many other diseases. Complete restoration to health vigor and manhood guaranteed. No risk is incurred. Illustrated pamphlet by addressing Voltaic Belt Co., Marshall Mich.
